

UPMA MISHRA

Full Stack Developer (MERN)

+91-7354126134 | upma7354@gmail.com | Dewas, Madhya Pradesh, India | [Linkedin](#) | [Github](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building and maintaining live production applications using the MERN stack and Next.js. Demonstrated expertise in developing scalable frontend and backend features, including administrative dashboards and Role-Based Access Control (RBAC). Proven track record of collaborating in Agile environments to deliver high-quality, production-ready code.

TECHNICAL SKILLS

- **Languages:** JavaScript(ES6+), C(Basic)
- **Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Shadcn/UI
- **Backend:** Node.js, Express.js, REST APIs, MVC Architecture
- **Database:** MongoDB
- **Tools:** Git, GitHub, Vercel, Postman
- **Specializations:** Role-Based Access Control (RBAC), Admin Panel Development

EXPERIENCE

DexterDigi - Full-Stack Developer Intern | [Certificate](#)

Nov 2025 - Apr 2026

Worked on live production platforms Wewagad and Cut2Cut using MERN Stack.

Developed News, Advertisement, and Profile Management sections with MongoDB CRUD operations and RBAC implementation.

Built responsive admin dashboard components, sidebar navigation, and reusable UI cards using React.js, Next.js, and Tailwind CSS.

Used AI tools like Cursor AI, Claude, and Perplexity for efficient debugging, prompt engineering, and development optimization.

PROJECTS

CraftIQ – AI SaaS Content Automation Platform | [Link](#)

Developed a scalable MERN-based AI platform integrating OpenAI APIs, Cloudinary, Neon Database, and Clerk authentication.

Engineered AI-powered tools for content generation, resume analysis, image editing, and background/object removal workflows.

Built analytics dashboards, premium subscription features, and desktop application support using Electron.js.

Improved application performance and usability through responsive design, API optimization, and reusable component architecture.

Speak-Hire – AI Recruitment & Interview Automation Platform | [Link](#)

Engineered a full-stack AI interview system with Next.js, Supabase, MediaPipe, and Vapi AI for automated candidate screening.

Designed features including live eye-contact tracking, AI voice interaction, sentiment-based scoring, and recruiter analytics dashboard.

Optimized scalable frontend architecture with responsive UI, authentication, role-based access control, and payment integration.

Developed community-driven interview experience sharing and PDF export functionality to improve candidate preparation workflows.

StudyZen – AI Study Assistant

Built an AI-powered study management platform using Next.js, TypeScript, Firebase, and TailwindCSS with task tracking, notes editor,

and focus mode. Integrated AI chatbot, personalized study coaching, and secure Google authentication for an enhanced learning experience.

HACKATHON EXPERIENCE

CodeForBharat (TechMastersIndia) - EcoRouteProject | [Certificate](#)

- Collaborated in a 3-person team to build EcoRoute, a sustainable route planner for environmental impact reduction.
- Qualified as a **National Finalist (Round 2)** by delivering a functional prototype within strict deadlines.
